

ALMAS NEYAMATULLAH

FULL-STACK DEVELOPER

7033761519 | almasneyamt786@gmail.com | github.com/Almasyash | linkedin.com/in/almas-neyamatullah

PROFESSIONAL SUMMARY

Full-Stack Developer with professional experience as a Web Developer at FS Groupz and hands-on experience building responsive business websites, developer tools, and mobile applications. Skilled in HTML, CSS, JavaScript, TypeScript, Dart, Kotlin, Flutter, Electron, Git, and GitHub. Strong practical experience in responsive UI development, debugging, testing, native Android integration, and shipping functional software.

PROFESSIONAL EXPERIENCE

Web Developer — FS Groupz | Current

- Develop and maintain responsive, production-oriented websites based on client and business requirements.
- Build reusable frontend interfaces, responsive layouts, interactive components, and cross-device experiences.
- Debug implementation issues, improve existing code, and integrate requested website functionality.
- Use Git/GitHub workflows for source control, collaboration, project maintenance, and delivery.
- Translate business requirements into functional, deployable web solutions and support project delivery.

SELECTED PROJECTS

Mahmas Studio — CapCut-Inspired Video Editor | Flutter, Dart, Kotlin, Android

- Built a mobile video-editing workflow with multi-track timeline interaction, local media import, preview, and editing functionality.
- Integrated Flutter application architecture with native Android media handling and validated the workflow through automated testing and static analysis.

Code Inspector Pro — JavaScript, Electron

- Built a developer-focused desktop application for code inspection and local development workflows using JavaScript and Electron.

Rigid Fitness Club Website — HTML, CSS, JavaScript

- Developed a responsive business website with structured sections, interactive functionality, and cross-device presentation.

Portfolio & Skin Care Centre Websites — HTML, CSS, JavaScript

- Built responsive portfolio and healthcare/business-oriented web projects focused on professional presentation, service information, and usability.
