PROFESSIONAL SUMMARY

Versatile **Full Stack Software Developer** and **Mobile Application Engineer** with a proven track record of building high-performance web applications, native Android software, and custom business platforms. Founder of **MAHMAS GROUP**, an official Government of India MSME-registered enterprise (UDYAM-BR-38-0075911) based in Bettiah, Bihar. Passionate about delivering cutting-edge digital experiences, scalable cloud backends, seamless WhatsApp commerce integrations, and clean user-centric UI/UX architectures.

EXPERIENCE & ENTREPRENEURSHIP

Founder & Lead Developer · MAHMAS GROUP

Bettiah, Bihar | 2023 – Present

Government Registered Micro Enterprise (UDYAM-BR-38-0075911 · NIC 6201 Web & Software Development)

- Architected and deployed modern showcase and e-commerce websites for regional businesses, clinics, and institutions with custom 1-tap WhatsApp order pipelines.
- Engineered offline-first local billing and inventory software tailored for shop counters, providing receipt printing, sales reports, and customer khata management.
- Successfully verified, ranked, and optimized Google Business Profile listings for local enterprises, driving high local search visibility.
- Directed client technology workflows at *MAHMAS Digital Cafe* and authored programming video tutorials on YouTube channel *Code With MAHMAS*.

Full-Stack Web & Mobile Developer · Freelance

Remote / India | 2021 – Present

- Designed responsive user interfaces in Figma and developed end-to-end full stack web platforms using React, Node.js, Express, and REST APIs.
- Built and released native Android utilities (APKs) with smooth media playback and custom UI components.
- Designed intuitive UI/UX prototypes and wireframes in Figma, translating concepts into pixel-perfect responsive web components.

KEY FEATURED PROJECTS

Pet's Heaven · Web Platform & Android App

Live Platform · petsheaven.in

- **Tech:** HTML5, CSS3, JavaScript, Android SDK, Responsive UI/UX Architecture
- Built an end-to-end pet-care portal providing service booking, veterinary showcases, and a companion native Android APK.

Full-Stack E-Commerce Website & Admin Suite

almasyash.github.io/E-COMMERCE-WEBSITE

- **Tech:** React.js, TypeScript, Node.js, Express.js, RESTful APIs, LocalStorage/Database
- Developed high-conversion customer storefront with cart state management, checkout workflow, and administrative catalog controls.

Editor FS · Android Video Editing Application

github.com/FS-Groupz/Editor-FS

- **Tech:** Android SDK, Java/Kotlin, Media Pipeline, APK Release & Optimization
- Implemented an interactive timeline editor with real-time video playback, audio mixing filters, and rapid export pipeline.

To-Do List · Interactive Task Manager & Workflow Tool

almasyash.github.io/Almas-Neyamatullah

- **Tech:** JavaScript (ES6+), LocalStorage, HTML5, CSS3 Glassmorphism, CRUD Engine
- Built a fast, responsive personal productivity web application with persistent offline storage, task categorization, and smart priority filters.
